

# BULLETIN MISSOURI STATE TEACHERS' ASSOCIATION

VOL. II—No. 2

*E. M. CARTER, Editor*

APRIL, 1916

Official Organ of the State Teachers' Association; published quarterly in January, April, July and October, under the direction of the Committee on Publications and Publicity of the Executive Committee.

Entered as Second-Class matter October 28, 1915, at the Post Office at Columbia, Missouri, under act of March 3, 1879.

Annual membership dues, \$1.00 per year; 50 cents of which is to cover cost of the Bulletin. Subscription price to non-members, \$1.00 per year.

To Members:—If you change your address, please notify Secretary E. M. Carter, Columbia, Missouri, giving your old as well as your new address. Address all communications to E. M. Carter, Secretary, Columbia, Missouri.

Next meeting: St. Louis, November 16-18, 1916.

## Membership Roll

At the request of a number of the members of the Association the membership roll is being printed in this issue of the Bulletin. The list is arranged by counties with the members listed alphabetically by post offices in each county. This issue of the Bulletin is the special directory number. The complete proceedings and addresses of the Kansas City meeting were published in the January Bulletin.

## Program 1916

President Thomas and the Department Chairmen are already at work on the program for the St. Louis Convention and will no doubt arrange a most excellent program. Mr. Thomas is in correspondence with some of the leading educators of the country and will be able to secure a number of these leaders for the St. Louis Program. Letters have already been received from a number of County Superintendents who feel certain that the slogan of 12,000 for 1916 will surely be reached. The copy for membership receipts is now in the hands of the printer and the campaign for membership will be started at a very early date. Some memberships for next year have already reached the hands of the Treasurer.

## Missouri at N. E. A.

The attention of the readers of the Bulletin is called to the enthusiastic communications of State Manager Martin as published on another page of the Bulletin. Missouri should have a large attendance at this meeting and no doubt the teachers in large numbers will take advantage of this fine opportunity to take a trip East, combining profit and pleasure.

### Finance Committee C. C. C.

Especial attention is called to the communications of Hon. Wm. P. Evans, who is Treasurer, and a member of the Constitutional Convention Committee. Through the efforts of Mr. Evans and other members of the finance committee more than \$4000.00 has been subscribed to the Constitutional Convention fund by the teachers of the State. This is a fine showing and the subscription list will no doubt be increased by contributions from all the teachers of the State. Mr. Evans gives a special Honor Roll of those teachers and towns contributing to date.

### Reading Circle

The number of Teachers Reading Circle books consigned during the year just closed, is the greatest in the history of the Reading Circle. The following books were consigned to County Managers up to March 1st: Bagley's "School Discipline" 6,400, Cubberley's "Rural Life and Education" 6,162, King's "Education for Social Efficiency," 5,327. Up to March 1st 6537 copies had been paid for and the payments are being made almost daily. It is estimated that for the year the total number of books sold will be greater than any previous year. The Pupils' Reading Circle books have had a sale of 11,875 volumes up to March 1st, or a total of \$3166.64. Since March 1st more than \$300.00 worth of books have been ordered and paid for, and orders are being filled every day. Indications are that the sales next year will show an excellent increase over the present year. The complete report of the Reading Circle will be printed in the July Bulletin.

### The Issue

The great educational issue in Missouri at this time is the calling of a constitutional convention for the purpose of proposing a new constitution for the State. The agitation for this convention is being directed on the part of the teachers by the Committee on Constitutional Convention, composed of the following educators: Chairman, Walter Williams, Columbia; W. H. Black, Marshall; Wm. P. Evans, St. Louis; S. E. Davis, Maryville; W. S. Dearmont, Cape Girardeau.

### Legislation Most Needed

A number of teachers have asked the question as to what laws are the most greatly needed at this time and if passed will prove most helpful to the educational needs of Missouri. Hon. Howard A. Gass in his excellent report of the Public Schools of the State for 1915 answers the question as follows:

1. A law providing for an educational commission, whose duty it shall be to study educational conditions in Missouri, the laws in our own and other states, and recommend a new educational code for the consideration of the General Assembly.
2. A law raising the standard of qualifications for county superintendents, and changing the time of taking office to July 1st, the beginning of the school year.
3. A law providing for traveling expenses and office assistants for county superintendents.
4. A law providing for health inspection in the public schools of Missouri.
5. A law providing for a state school architect.

6. A law providing for an additional high school inspector and four rural inspectors in the Department of Education.

7. A law providing for state aid to approved rural schools.

8. A law providing for the education and training of cripples.

N. E. A., State Director Howard A. Gass and State Manager W. H. Martin have taken up the work in a very enthusiastic way to secure a large attendance at N. E. A., which will meet in New York, July 3-8, 1916. Mr. Gass has appointed the following as assistant State Managers, one from each Congressional District: Byron Cosby, Kirksville; E. M. Sipple, Moberly; W. S. Drace, Richmond; J. A. Whitford, St. Joseph; George Melcher, Kansas City; C. A. Phillips, Warrensburg; M. A. O'Rear, Springfield; J. D. Elliff, Columbia; Herbert Pryor, Mexico; L. W. Rader, St. Louis; H. B. Dickey, St. Louis; Chas. Collins, St. Louis; C. C. Thudium, Fredericktown; W. W. Martin, Cape Girardeau; J. A. Koontz, Joplin; C. H. McIntosh, Salem.

Mr. Martin, in the letters which follow, gives much information relative to the New York meeting. The letters follow:

"Kansas City, Mo., April, 1916.

"To the Teachers of Missouri:—

"The National Education Association holds its next meeting in New York City, July, 1916, from the 3d to the 8th, inclusive. Great preparations are being made by the teachers of New York City and of New York State, generally, to make this meeting the largest ever held in the history of the Association. New York City and New York State, together with the New England states, it is claimed, will enroll more teachers at this meeting than all other states combined. I cannot believe this is possible if the other states work with anything like the zeal that is being put forth in New York and in the New England section.

"In addition to the splendid program that is being prepared, there will be a great many 'Sight-seeing Trips' in New York City, and excursions out of the city to the various resorts round about. Certain, it is, that there will be many things to see and many places to go.

"The trip will not be an expensive one. The railroads will give the usual reduction in rates, together with time extensions and 'stop-over' privileges, so that those who wish to spend their vacation in the East may easily arrange to do so in connection with their attendance at the Association, and without extra charge.

"Many inquiries come to us concerning through service on these long trips. Very few persons care to change after they get comfortably fixed in their sleeping coach. For the information of those who are likely to take this trip, and who do not like to change sleeping cars on the way, I wish to say that 'through sleeping car service' can be had from St. Louis to New York City, over the Wabash, Pennsylvania, Baltimore & Ohio, and the 'Big Four'—New York Central.

"FROM KANSAS CITY—The Wabash road is the only one operating 'through sleeping car service' without a change to New York City.

"Missouri should take the lead of the states of the Middle West in its attendance at this meeting, for the simple reason that it has been greatly honored by the Association. At the Detroit meeting in February, the Superintendent's Department selected Kansas City as its next meeting place. This fact alone is sufficient, no doubt, to greatly encourage an increase in Missouri's attendance.

"But in addition to this, and to further encourage an increase in attendance from this State, the Manager will see to it that the railroad fare to

New York and return will be paid to any teacher, principal, supervisor, or superintendent in the State, who influences the greatest number of teachers to attend and to enroll in person at Missouri headquarters—provided, however, that not less than 150 teachers from the State so enroll. Remember this offer, and go to work now. Someone is going to get the prize. **Let it be you.**

"Missouri Headquarters will be found in Hotel McAlpine and will be open on the morning of July the 3d. Be there to enroll.

"W. H. MARTIN, State Manager, 4332 Rockhill Road, Kansas City, Mo."

"Kansas City, Mo., April, 1916.

"Dear Sir:—

"We are now casting about to find some unique and attractive kind of educational exhibit to decorate our headquarters with during the N. E. A. meeting at New York next summer. It is thought that we might find a number of schools at this time of year with just the thing on hand that we need. Some schools have what they call a 'Year Book' containing pictures, specimens, and illustrations of what is being done; others keep specimens on hand of the very best work handed in along certain lines, and still others issue bulletins illustrated, and also folders showing in concise form the progress their schools are making in the way of building, equipment, etc., also illustrated school work.

"Anyway, I want to decorate our headquarters with Missouri products, and if you have anything that is easy to handle, that does not take up too much space and at the same time is decorative and educational, please send to me, care of Missouri Headquarters, Hotel McAlpine, New York, so as to reach me by July 3rd, the day headquarters are to open.

"An early reply will be greatly appreciated.

Cordially,

" W. H. MARTIN, State Manager.

"4332 Rockhill Road."

## REPORT ON CONSTITUTIONAL CONVENTION COMMITTEE FINANCES.

The Constitutional Convention Committee with an appropriation of \$100 to launch its work found at the outset an indispensable need of money and appealed to the Executive Committee for help. Money was needed for literature and its dissemination. Money was needed to defray the expenses of necessary workers. The Executive Committee realizing that a large program was necessary and that a small outlay was useless and rising to the importance of the cause, appropriated \$2000 from the funds of the State Teachers' Association, conditioning \$1500 on outside support to the extent of \$4000.

It was decided to appeal to the public and private teachers of the state for this money. The undersigned were named on the Committee. This committee met February 12th and decided to ask the teachers to contribute one-tenth of one per cent of this year's salary. It was determined to ask the superintendents of the various cities to attend to the details of the collection from their assistants and to have the money in by April 1st, as nothing could be done in the campaign until the money was in hand.

The secretary of the committee attended to the preparation of the appeal. Feb. 23rd about fifty of the schoolmen and women of the state were at dinner in Detroit and adopted the following resolution:

"Since the Constitutional Convention Committee appointed by the State Teachers' Association has undertaken to unite all organizations and individuals who are interested in the revision of the State Constitution into a great central body, for the purpose of carrying on a state-wide campaign and

Since considerable expense will be incurred in the efforts of the committee to bring about such an organization:

BE IT RESOLVED, That we, the Superintendents and Teachers of Missouri attending the meeting of Department of Superintendence of the N. E. A., at Detroit, do heartily approve the plan of the Sub-Committee on Finance to create a fund for the above named purpose by asking every teacher in the State to contribute one-tenth of one per cent of this year's salary."

The County Superintendents in their convention last May declared for a new State Constitution and their assistance in raising money and carrying on the agitation is confidently relied upon. The difficulties in the way of their effectively reaching the rural teachers to collect money at this time were seen and it was decided to ask them to do this in the autumn when they have their meetings. As soon as money can be raised to pay for it, literature will be printed and all teachers are urged to exert themselves to get information and to lose no opportunity to further the agitation.

The following is from the Committee's appeal:

"In common with all thoughtful citizens, the teachers of the State want a new Constitution that will permit the readjustments called for by recent social and civic progress: In the educational field we point out the following specific needs: 1. Betterment of teaching conditions. 2. Modification of present taxation limit for schools. 3. Longer terms of school, and better salaries for teachers. 4. Extension of State aid for districts financially weak. 5. Adequate support for higher and professional education. 6. State provision for vocational education. 7. Effective care for dependent and delinquent children.

For the kind response to its distasteful quest for money the Committee expresses its deep appreciation. This seems to refute Edmund Burke's pessimism when he says, "It's as hard to tax and please as to love and be wise."

A detailed statement of the receipts up to April 15 is attacht.

Some towns will be missed in the list but many of them will be found in the next report in the July bulletin. One superintendent sent in his personal contribution and asked to be given something to do. Another superintendent sent in nearly three times his quota. He says his patrons helped.

This money is deposited in the Mercantile Trust Co. of St. Louis in the joint names of Walter Williams and Wm. P. Evans and will be expended under the direction of the Constitutional Convention Committee. A full report of the expenses will be made.

Apparently no help need be looked for from teachers in private schools. The treasurer of this committee is much gratified at this new reason for his confidence in the public spirit of his fellow public school teachers. Few, besides him, expected such a prompt and general response to the appeal. As these accounts have not been audited yet they are signed by the treasurer alone.

Respectfully

WM. P. EVANS,

Treasurer Constitutional Convention Committee.

### LETTER CONSTITUTIONAL CONVENTION COMMITTEE TO SUPERINTENDENTS.

The Executive Committee of the Missouri State Teachers' Association set aside \$2,000 for the use of the Constitutional Convention Committee, but \$1,500 is conditioned on \$4,000 being raised from other sources. It was then decided to appeal to the teachers of the State and the Finance Committee was appointed to manage the details. You have received the appeal.

A number of individuals and towns have already sent in their contributions and the following have informed the Committee that they have taken steps to make the requested levy: Kansas City (over half the money in); St. Louis; Maplewood. Cape Girardeau; Webb City; Nevada; Hannibal; Lexington and Wellston.

The County Superintendents will be asked to broach the matter to the teachers under their supervision this summer when they hold their county meetings. In this way it is hoped to reach all. The plan of raising money was endorsed by the Missourians assembled at Detroit and with your help it is safe to say that its success is now assured. The only question now is to make it unanimous and prompt.

The time for the best work in molding and crystalizing sentiment and winning friends among possible members of the next Legislature is before the campaign waxes hot. Literature cannot be prepared and sent out until money is in hand.

You may be interested to know that the method of securing a new State Constitution entails the following procedure:

- a. Submission by the 1917 Legislature of the proposal for a constitutional convention to voters.
- b. A special election to act on the proposal and to choose delegates.
- c. Drafting of a new constitution by the convention.
- d. Submission of the proposed new constitution at a special election.
- e. Enactment of new statutes by the 1919 Legislature.

May the Committee not have a word from you as to the decision of your assistants in this matter?

Yours truly,

Wm. P. EVANS.

## LETTER TO THE TEACHERS OF ST. LOUIS.

St. Louis, Mo., March 21, 1916.

To the Teaching Body of the  
St. Louis Public Schools:—

In your mass meeting March 13th you decided to support with a portion of this year's salary, the committee appointed by the State Teachers' Association to carry on an agitation for a new state constitution. You also appointed the undersigned committee to carry out the details incident to your action. Accordingly you will find on the reverse a reminder. Principals are requested to collect the amounts indicated and send them to Dr. E. George Payne, care Mr. F. L. Wiley, Secretary to the Superintendent, 9th & Locust Sts. Individuals are requested to remit to him also.

The opportunity is great; the need is immediate and urgent. The propaganda cannot begin until the money is in hand to defray the expenses. The work of forming and crystallizing sentiment and convincing possible members of the next Legislature can best be done before the political campaign waxes hot. Report has it that the bare announcement of the impending action of the Missouri State Teachers' Association is already rallying friends to its support.

You may be interested to know that the method of securing a new state constitution entails the following procedure:

- Submission by the 1917 Legislature of the proposal for a constitutional convention to voters.
- A special election to act on the proposal and to choose delegates.
- Drafting of a new constitution by the convention.
- Submission of the proposed new constitution at a special election.
- Enactment of new statutes by the 1919 Legislature.

This summary indicates to you the importance of convincing a large majority of the 1917 Legislature of the urgency of a Constitutional Convention at the earliest possible date.

Your committee hopes for a prompt and unanimous response.

Respectfully submitted,

Wm. P. Evans, Chairman; J. R. Powell, Secretary; E. George Payne, Treasurer; L. R. Ernst, T. C. Gecks.

## TEACHERS' AND PUPILS' READING CIRCLES.

## TEACHERS' READING CIRCLE.—1915-16.

For the Teachers' Reading Circle this year the board has adopted three fine books: Bagley's School Discipline, Cubberly's Rural Life and Education and King's Education for School Efficiency. Each will fill a distinct field yet will supplement the work of each of the others. The board has looked with regret on the evident neglect of the T. R. C. adoptions in the cities and has tried to remove the difficulty by a three book adoption. The books chosen will supply profit to all teachers whether in country, town or city. The experience in other states shows that the enthusiasm of having a large number of readers at work on the same books throughout the length and breadth of the state tends to strengthen the interest of all along the line.

In order to encourage the sale of T. R. C. books the board has offered the following prizes:

On the total sales of the three books adopted for the Teachers' Reading Circle, two prizes will be awarded to the two county superintendents making the largest returns, on the condition that the number of teachers in the counties be considered. (A county with 100 teachers must do twice the business of a 50 teacher county to be on equal terms.) The first prize is a life membership in the State Teachers' Association and the second prize is the same.

Watch the bulletin for the standing of your county in the contest.

The books are supplied by the county manager at \$1 each. Where there is no county manager they will be sent on receipt of the price by E. M. Carter, secretary, Columbia, Mo.

**BAGLEY'S "SCHOOL DISCIPLINE"—Reading Circle Price, \$1.00.**

It is generally conceded in the educational world that the greatest pit-fall for the average teacher is school discipline. The beginning teacher and the teacher of a very few years' experience are the ones who find school discipline their greatest stumbling block.

A good, sane, sensible book on School Discipline is the most needed book today for reading and study on the part of teachers. No teacher can read Bagley's "School Discipline" without turning from it with an ambition and zeal to develop a healthful and permanent fashion of order in his school.

Bagley's "School Discipline" is a book of unusual merit—distinctive, suggestive, helpful. The style is interesting, the language simple. Each chapter closes with questions and exercises. The beginning teacher gets out of the book the information and thought which the author has intended he should get; moreover, the exercises are such as to awaken thought and interest; and, in numerous cases, investigation on the part of the reader.

In the first chapter the author discusses what is meant by "A Well-Disciplined School." The treatment is so simple that the beginning teacher, on reading this chapter, at once realizes what his school must represent in the way of discipline to be classed under the head of a well-disciplined school.

Beginning with the second chapter, the author states his problem—namely, "The Unruly School." It is at once seen that he goes to the root of the matter in rightly assuming that there are unruly schools.

The problem of the book, therefore, is to solve the question of bringing order out of chaos—discipline out of disorder. This book means much to the average teacher—a more comprehensive understanding of child nature and how to train it to the needs of improved discipline in the school-room as preparatory to better citizenship; a more sympathetic understanding as to the motives of the children, and, consequently, the most rational method of developing the good and eradicating the evil.

The author has been unusually successful in presenting in a concrete way the various steps which may be taken to establish a wholesome school spirit that will reduce disciplinary difficulties to a minimum.

**RURAL LIFE AND EDUCATION**, by Ellwood P. Cubberley. Illustrated, 12mo. List Price, \$1.50. R. C. Price, \$1.00.

This book presents the most fundamental treatment available of the rural school problem, which is today a social, even more than an educational problem, and inseparable from the rural life problem, of which it is but a phase of Cubberley's book, which is clearly written, logical in statement, and concrete in its suggestions, is especially designed for those who are to teach in rural schools, and those who are interested in having such schools render the largest possible service to their respective communities. No other book explains so convincingly the fundamental needs of rural communities, or the necessary reorganization of their educational systems. The value of the text is increased by practical illustrations, excellent photographs, drawings and charts, and by the series of well chosen questions at the end of each chapter.

**EDUCATION FOR SOCIAL EFFICIENCY**, by Irving King, School of Education, Iowa State University. List, \$1.25. R. C. Price, \$1.00.

One of the most significant aspects of recent educational development is the increasing appreciation of the social meaning of education. This conception, which is gradually displacing the older individualistic philosophy, is causing far-reaching readjustments in current educational theory and practice. Those who feel the need of a clear definition of the social end of education, and a concise discussion of the means for attaining this end, will find in Dr. King's book an unusually helpful and inspirational treatise. It is the purpose of this book to define these new social ideals in their application to practical school work.

Thruout the book, the author emphasizes at every turn the social factor in education, and shows how the work of the school can be directly applied to the needs of the community. While keeping the social point of view constantly in mind, the author has not been unmindful that education has other important meanings and values.

One of the most valuable chapters is that on "The Character-Forming Possibilities of Home Life." Another important feature is the account of the "Possibilities of Vocational Guidance and Training," a subject which is coming to be considered more and more seriously by all educators as an indispensable factor in their schemes of educational endeavor.

The chapter on "The Consolidation of Rural Schools" has proved to be one of the most timely and helpful discussions of this important phase of educational endeavor. It has been suggested that this chapter ought to be read by every citizen who has the welfare of the public school system at heart.

#### PUPILS' READING CIRCLE.

The books added to the Pupils' Reading Circle list this year are an admirable group and bring up the total to one hundred volumes. All but one are bound in cloth and are as substantial as necessary. Send for the complete, descriptive circular. These books are not handled for profit but on a co-operative basis. The board has no need of money beyond the necessities in the way of expense. Never before have books been offered so cheaply.

Two purposes moved the board to add the supplementary books: A wise choice and cheapness because of the amount of business. Children in elementary schools cannot use profitably unabridged dictionaries or the common encyclopedias. Moreover, they cost too much for the average school board. Children in the sixth, seventh and eighth grades should be well supplied with the secondary school dictionaries and taught to use them. These books are recommended by the State Course of Study and are all the dictionaries needed. Smaller and cheaper ones than these do not give such meaning as to be of use. One city superintendent plans ordering thirty-six of these from the board if he finds that the prices are right. Listed \$1.50.

There is only one low priced encyclopedia for children. This is the book recommended by the State Course of Study and by several other states. All libraries supply it for their children. The board has arranged to furnish it to schools at a lower price than it can be bought anywhere else. There are five volumes of it, but each is complete in itself and is sold separately. One city superintendent said as soon as he saw the books that he wanted some for his schools. List, \$3 per volume. R. C. Price, \$1.92.

Cromwell's *Agriculture and Life* should be on the desk of every teacher, rural or town. Children in the sixth, seventh and eighth grades get it with delight and their parents will be only too glad to get hold of it. The board's arrangement puts it in your hands at a very low price. List Price, \$1.50. R. C. Price, \$1.00.

Guerber's *Story of the Great Republic* is a too well-known supplementary United States history reader to need any special mention here. It is recommended by the State Course of Study.
